

Product Specifications: SmartCover™

Bentley Prince Street SmartCover™ is the revolutionary temporary carpet protection product designed to withstand the intense foot traffic of a busy job site. Working in alliance with VELCRO®, Bentley Prince Street is the first carpet manufacturer to market and sell SmartCover™ technology to effectively protect loop pile and cut/loop carpet products. SmartCover is not designed for use with 100% cut pile products.

Product Code: 684092

Carpet Protection: Loop Carpeting

Examination

- A. Verify carpeting is compatible for use (loop or loop/cut pile combination). *SmartCover is not designed for use with 100% cut pile products.* Test hook-engagement on a sample of carpeting to confirm performance.
- B. Do not install until carpeting is clean of debris

Preparation

- A. Clean carpeting prior to installation as to not trap dirt and debris under the carpet protection

Installation

- A. Install hook backed carpet protection per manufacturer's instructions
- B. Use hook tape to secure ends of carpet protection to prevent tripping hazard

Cleaning and Protection

- A. Keep areas clean and free of loose debris, vacuum as necessary
- B. Repair tears or rips to carpet protection using hook tape, or replace as necessary
- C. Upon completion of work promptly remove all protection and dispose of properly
