

FOR IMMEDIATE RELEASE

MARVELOUS MOHAIR BRINGS NATURAL STRENGTH AND BEAUTY TO BENTLEY PRINCE STREET'S LINE OF DISTINCTIVE AREA RUGS

Woven Wool Rugs are Renewable, Naturally Resilient & Perfect for Home or Office

Los Angeles, CA – [March 17, 2010] – [Bentley Prince Street, Inc.](#), manufacturer of award-winning broadloom and carpet tile, has added Marvelous Mohair™ to its growing collection of distinctive and sustainable [area rugs](#). In keeping with Bentley Prince Street's [Mission Zero](#)® promise, Marvelous Mohair is made from masterfully woven wool, a natural and renewable fiber. The result is a resilient and durable area rug designed to add a touch of warmth, which only an area rug can bring, to residential and commercial spaces.

“Building on our tradition of providing broadloom and carpet tile for beautiful public spaces, BPS area rugs are doing the same for more intimate spaces with products like Marvelous Mohair,” says Anthony Minite, president of Bentley Prince Street. “Marvelous Mohair is stylish and sustainable, two things our customers have come to expect from us, and allows our customers to bring the same design they are accustomed to seeing in great hotels and concert halls home with them.”

Marvelous Mohair is available in six, deep-dyed color ways including: Black Diamond, Utah Powder, Spring Sliprock, Shiver-Fest, Hot Chocolate and City Sleet. The colors are neutral, yet saturated, and are as vivid as their names. When combined with the thick texture of the wool the result is a luxurious finished product.

“We designed this area rug to bring unrefined beauty to where our customers work and live,” says Valerie Ottaviano, vice president of design, Bentley Prince Street. “A range of colors found in nature compliment the innate opulence of wool making our mohair truly marvelous.”

With the addition of Marvelous Mohair, Bentley Prince Street Rugs now offers ten distinctive styles. Wool is an ideal choice for area rugs because not only is it renewable, but also naturally resistant to fire, dirt and dust.

About Bentley Prince Street

Defining style, color, quality and service for 30 years, Bentley Prince Street manufactures and markets award-winning broadloom and carpet tile products for commercial interiors across the globe. Bentley Prince Street is committed to pursuing sustainable commerce and innovations to integrate style and function with environmental practices through its [Mission Zero](#)® goal of eliminating any negative impact it has on the

environment by the year 2020. The company maintains third-party certification to the ISO 9001:2000 Quality Management System and the ISO 14001:2004 Environmental Management System. Based in Los Angeles County, California, Bentley Prince Street is a subsidiary of Interface, Inc., a global provider of floor coverings.
