

Bentley Prince Street's Digital Tile Configurator™ allows End Users to Create Custom Surfaces Instantly Online

Los Angeles, CA – [July 06, 2011] – The online Tile Configurator is the latest addition to Bentley Prince Street's legacy of carpet tile products and ongoing commitment to sustainable floorcovering solutions. Now, designers and facility managers can virtually create custom surface solutions selecting from Bentley Prince Street's extensive selection of modular carpet products. The Tile Configurator offers multiple textures and patterns and recommended installations including three available carpet tile sizes: 18"x36", 24"x24" and 36x36".

"We are confident that our innovative tile sizes and designs will inspire our customers," says Anthony Minite, president of Bentley Prince Street. "The Tile Configurator is an easy-to-use tool that allows our customers to experiment with different ideas online and see those ideas come to life in a matter of moments, which is not only exciting, but also supports our sustainability commitment and Mission Zero® promise."

Bentley Prince Street's array of carpet tile products, sizes and configurations lend themselves to creativity, exploration and innovation. The Tile Configurator makes the exploration process convenient for customers by bringing it online. Users begin by choosing a product and colorway, followed by a tile size and installation method. Then, they have the option of viewing their custom tile configuration on a grid, or in a pre-selected room scene. Finally, the Tile Configurator allows users to print, save, or request a sample of their creations.

The company recently recognized an industry need for modular carpet that delivers increased design flexibility and in response, launched the 18"x36", 24x24" and 36"x36" carpet tile sizes. Bentley Prince Street then went to work developing the Tile Configurator, an online platform allowing users to discover all that the new sizes have to offer. The functionality of the three tile sizes coupled with the convenience of the Tile Configurator make it easy for designers and facility managers to conceptualize Modular, Multifunctional and Magnificent™ spaces.

About Bentley Prince Street

Defining style, color, quality and service for 30 years, Bentley Prince Street manufactures and markets award-winning broadloom and carpet tile products for commercial interiors across the globe. Bentley Prince Street is committed to sustainable commerce and innovations to integrate style and function with environmental practices through its Mission Zero® goal of eliminating any negative impact it has on the environment by the year 2020.
